Product Description:

Biaxially-Oriented Polypropylene Bags (BOPP)

Brand:

TuffGards

Product Description:

BOPP Bags and Sheets

Effective Date:

2/7/2014

Notes:

The Handgards BOPP line of bags and sheets offers a new, distinctive combination of properties to our line of comprehensive foodservice products. Biaxially-Oriented Polypropylene, also known as BOPP, film is stretched in a longitudinal direction and then also stretched in the traverse or lateral direction. This process creates a film that is highly durable with great tensile strength. Added to that, the bags and sheets made of this film exhibit a high gloss and crystal clear transparency that showcases any food item it stores.

Polypropylene is a material that has FDA approval for food packaging and its clarity is the perfect choice for packaging those items that are ready to eat.

BOPP bags come in various sizes to choose from, with or without a self-adhesive strip.
